

# Research Infrastructure Database

-- Forschungsinfrastruktur-Datenbank

Facts & Figures

# 2016 - 2022

Period: January 2016 - April 2022

The 'Austrian Research Infrastructure Database' is open for collaboration. The database offers an information platform to facilitate the cooperative use of research infrastructures in science, research, business and industry.

Research infrastructures for new cooperation projects or research services can be found or offered via the database.
